PROFESSIONAL SUMMARY

Motivated B.Tech CSE (AI) student at Chitkara University with a strong foundation in machine learning, data analysis, and software development. Proficient in Python-based ML frameworks and Java, with hands-on project experience in predictive modeling. Microsoft Azure Fundamentals certified and actively building expertise in AI and data science. Seeking a Data Scientist / ML Engineer role to apply analytical and programming skills to real-world problems.

EDUCATION

Chitkara University, Punjab

B.Tech in Computer Science & Engineering (AI)

2024 – 2028 (Expected)

CGPA: 8.95 / 10

TECHNICAL SKILLS

Languages: Java, Python, C/C++

ML & Data Science: Machine Learning, Pandas, NumPy, Matplotlib, Scikit-learn

Core CS: Data Structures & Algorithms (DSA), DBMS, Operating Systems

Web Development: HTML, CSS, JavaScript, Django, Flask

Cloud & Tools: Microsoft Azure, Git, VS Code

PROJECTS

Solar Power Generation Predictor

2024

Python | Scikit-learn | Pandas | NumPy | Matplotlib | Random Forest | Regression Models

- Built a predictive ML model to forecast DC power output of solar panels based on external environmental factors such as temperature, irradiation, and humidity.
- Trained and evaluated multiple regression models including Linear Regression, Polynomial Regression, and Random Forest Regressor to compare performance.
- Achieved 95% accuracy using Random Forest Regressor, outperforming other tested models significantly.
- Performed exploratory data analysis (EDA) and feature engineering using Pandas and NumPy; visualized model results and data distributions using Matplotlib.

SkillHub

2025

Python | Django | HTML | CSS | SQLite

- Built a Django-based peer-to-peer student learning platform enabling students to connect, schedule sessions, and exchange skills with each other.
- Designed and implemented core features including user profiles, connection requests, and session scheduling with a relational SQLite database.
- Built a unified front-end design system with custom CSS properties, ensuring consistent UI components across Profile, Connections, and Scheduling pages.
